signed MOU's with UAS to distribute a custom NOS survey link to their member database of FA's to complete this study. At that time, we did not know how many FA's would complete the study. The data collected in this study will allow the air transportation industry to evaluate current sex and labor trafficking training and awareness programs, consider how many FA's recognized signs of human trafficking and the results of those identifiers, review recommendations for improving anti-trafficking efforts among FA's, and other important ways that the data can be deemed useful.
